

Arise & Fight

We the CRP take responsibility for the action taken at dawn on March 15 against the offices of 2 yankee multinational companies. Like the operations the day before against 3 recruiting offices of the armed forces of imperialism, this action is in repudiation of the yankee marine presence in Vieques & in support of the struggle of the people of Vieques for the redemption of their territory.

The 2 companies that we attacked today, Sperry Univac & RCA, are yankee octopuses that function internationally & are intimately linked to the military apparatus of the U.S. Sperry Univac makes computer & other electronic equipment for war, such as navigation and bombing systems for yankee war planes. RCA, which specializes in communications, operates the communications & espionage installations of the yankee marines in the town of Isabela.

These big corporations, among many others, are the true beneficiaries of the direct aggression suffered by our people in the territory of Vieques. They not only enjoy juicy contracts with the military forces of imperialism, but the so-called "national defense" that the marines allude to in order to justify their presence in is nothing but the defense & protection of a system of colonial exploitation that only benefits these big transnationals, who - like leeches - enrich themselves with the sweat & labor of our people & other people of the world.

Today we make clear our daily more profound commitment to the liberation of our people & the peoples of Latin America. We know that every blow we strike is a step toward our liberation & the liberation of our brothers. With the heroic example of Andres & all our fallen & jailed patriots, we say long live to our liberty - independence & socialism.

MARINES OUT OF VIEQUES!

ONLY PEOPLE'S WAR WILL SAVE THE PEOPLE (CRP)

EL PUEBLO VENCERA - THE PEOPLE WILL WIN
